RESOLUTION

REVIEWING

The reports on the working of the District Boards in Bihar during the year 1938-39.

SUPERINTENDENT, GOVERNMENT PRINTING BIHAR,
PATNA.
1941.

No. 2384-L.S.-G.

GOVERNMENT OF BIHAR.

(MINISTRY OF LOCAL SELF-GOVERNMENT.)

FROM

V. K. R. MENON, Esq., I.C.S.,
SECRETARY TO GOVERNMENT.

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

Patna, the 30th May 1941.

SIR,

I am directed by the Government of Bihar to submit the accompanying resolution on the working of district and local boards in Bihar during the year 1938-39, together with the prescribed statements.

2. An abstract of the income and expenditure of district and local boards in the province during the year in form of Table 141 of the Statistical Abstract of British India (fifth issue) is also submitted as promised in Mr. Owen's letter no. 1642-L.S.-G., dated the 2nd February 1929.

I have the honour to be,

SIR,

Your most obedient servant,

V. K. R. MENON,

Secretary to Government.

No. 2383-L.S.-G.

LOCAL SELF-GOVERNMENT DEPARTMENT.

RESOLUTION.

Dated the 30th May 1941.

READ—

The reports of the Commissioners of Divisions on the working of district boards during the year 1938-39.

1. *Constitution of district boards.*—The extended term of five years of the district boards having expired in the year 1937-38, all of them were due to be reconstituted during the year under review. But, for the reasons explained in the last year's resolution, the general elections could not be held during the year, and the old boards continued to function throughout the year. The Bhagalpur district board and the four local boards under it remained under supersession during the year, and Maulavi Saiyid Waris Hassan, Sub-Deputy Collector who was appointed to hold charge of the board from the 7th July 1938 continued to administer it throughout the year. The advisory committee constituted by Government in the preceding year continued to advise the Special Officer in all matters affecting the administration of the board. There was thus no change in the constitution or in the personnel of district boards during the year under report.

2. *Meetings and tours.*—All the district boards except the district board of Hazaribagh, held meetings in excess of the statutory minimum of 12 meetings in the year. The Hazaribagh district board held only 9 meetings for which no explanation has been given. The Purnea district board held the largest number of meetings, viz., 31, including special meetings. The average percentage of attendance of members at meetings was above 50 in all districts except Champaran where it was 49·1. The average percentage of attendance of official members at meetings was very low in Champaran, being only 26·6 while in the other district boards it varied from 44·3 to 88·5. The percentage of attendance of non-official members varied from 51·1 to 89·23.

The non-official chairmen of the district boards of Patna, Shahabad, Saran, Champaran, Muzaffarpur, Monghyr, Purnea and Singhbhum and the non-official vice-chairmen of the district boards of Patna, Saran, Champaran, Muzaffarpur, Purnea and Manbhum made fairly extensive tours during which they inspected, as usual, schools, dispensaries, pounds, dak bungalows, roads, bridges and local offices under their administrative control. In the other districts the amount of touring done by the executives of district boards was inadequate. The Special Officer in charge of the Bhagalpur district board spent only 49 days on tour outside his headquarters which Government regard as inadequate; and they are not altogether satisfied with his explanation that he could not spend more time on tour as his stay at headquarters was necessary for quick disposal of work. The chairman of the Manbhum district board and the vice-chairman of the Darbhanga district board spent only 4 days and 8 days on tour respectively in the year, while the chairman of the Darbhanga district board and the vice-chairman of the Gaya district board did not go out for inspections even for a single day. In the preceding year also the chairman of the Darbhanga district board and the vice-chairman of the Gaya district board did not tour at all. All this is far from satisfactory and it is regrettable that one of the most important duties of district board executives should have been so sadly neglected by so many of them. The importance of extensive and regular tours of inspection cannot be over emphasised.

3. *Local boards.*—The total number and constitution of local boards remained unchanged during the year. The local boards in Bhagalpur continued to remain under supersession along with the district board throughout the year. The majority of the local boards held the statutory minimum of 12 meetings a year, the exceptions being the local boards of Nawadah, Aurangabad, Arrah, Buxar, Bhabua, Saran Sadr, Darbhanga Sadr, Madhubani, Samastipur and Giridih. All these boards except Madhubani had failed in the preceding year also to hold the statutory number of meetings and the fact was noticed by Government in their resolution of the preceding year. The average percentage of attendance of members at meetings was above 50 in all local boards except Gaya Sadr, Bettiah and Samastipur in respect of which the percentages were 38·43, 49·59 and 48·00 respectively. Out of the total number of 397 meetings held by the local boards during the year 11 meetings proved abortive for want of quorum.

The local boards continued to exercise the same powers as in the previous year, except that the Dhanbad local board, which exercises very wide powers in respect of all matters, was deprived of the privilege which it had long enjoyed of entering into contracts of values varying from Rs. 500 to Rs. 5,000, such contracts being now accepted by the district board direct. As in the preceding year, the amalgamation scheme in respect of public works under which all bills are checked and passed by the District Engineers before they are paid by the local boards continued to work satisfactorily in Monghyr and Bhagalpur.

4. *Union committees.*—The total number of union committees remained unaltered and all of them continued to work with the same number of members as in the preceding year. The union committees of Haveli-Kharagpur, Gogri and Khagaria in Monghyr and Balarampur and Chas in Manbhum were reconstituted during the year under review. Out of 22 union committees 8 failed to hold the prescribed number of 12 meetings during the year. The Amarpur union committee in Bhagalpur and the Dehri-on-Sone union committee in Shahabad were the worst offenders in this respect, the number of meetings held by the former committee having been only 4, while no meeting at all was held by the latter. The activities of union committees were, as usual, confined to the maintenance of roads, sanitary measures and conservancy arrangements including the cleaning of private and public latrines, management of pounds, maintenance of primary schools and dispensaries and the improvement of water-supply. Some committees, viz., Madhipura and Nirmali in Bhagalpur and Dalsingsarai and Jainagar in Darbhanga, also maintained street lighting with the funds provided by the district boards concerned.

The main sources of income of the union committees were contributions from the district boards, taxes under section 118-C of the Bihar and Orissa Local Self-Government Act, 1885, and receipts under the Cattle Trespass Act. The total receipts of committees from all sources during the year under review amounted to Rs. 91,417 (excluding the opening balance of Rs. 18,818) which shows a small increase over the preceding year's receipts. The total amount available for expenditure by union committees including the opening balance was Rs. 1,10,235 of which Rs. 91,356 was spent during the year leaving a balance of Rs. 18,879.

5. *Financial results.*—(Except where otherwise indicated, the figures in this and the succeeding paragraphs are given in thousands of rupees.)

The aggregate opening balance of district boards [including deposits (4,03) and unspent Government grants (7,18)] on the 1st April 1938 amounted to 33,12 against 20,89 in the preceding year. The increase of 12,23 was shared by all the boards except Gaya, Bhagalpur, Hazaribagh and Manbhum where there was some decrease as compared with the last year's figures. The total receipts of the boards from all sources including Government grants but excluding the opening balance amounted to 1,38,95 against 1,61,36 in the preceding year. The total amount available for expenditure during the year, including the opening balance thus stood at 1,72,07 out of which a total sum of 1,45,34 was actually spent leaving a closing balance of 26,73. This closing

balance includes deposits amounting to 4,12 which sum does not belong to the boards. The actual balance at the credit of the boards thus stood at 22,61 of which 6,46 represents unspent balances of Government grants. The ordinary free balance of the boards at the close of the year thus amounted to 16,15 as against 21,90 in the preceding year. The actual closing balances of all boards except those of Saran, Champaran and Monghyr were above the minimum prescribed in each case. In Monghyr the balance amounted to Rs. 1,854 only due to the fact that the actual cess realisations fell short of the Collector's estimate by Rs. 44,774. No explanations have been furnished by the district boards of Saran and Champaran in respect of their failure to attain the minimum closing balances. The financial position of the Saran district board continued to be unsatisfactory, while that of the Palamau and the Patna district boards was also disquieting. The Palamau district board fell back on Government grants to run the administration, and contractors' bills for over Rs. 15,000 were held up for want of funds. Although the closing balance of the Patna district board at the end of 1937-38 amounted to Rs. 1,48,833 the balance of special funds merged therein, e.g. the balance of Government grants made for specific purposes, the balance of unexpended loan and refundable deposits aggregated to Rs. 1,72,673 so that the free balance of the board was actually a *minus* figure.

The annual report on the working of the Local Audit Department shows that the unsatisfactory financial condition of district boards is mainly due to disregard of financial principles and defective budget control leading to expenditure in excess of the income.

6. *Local rates.*—The total income of district boards during the year from this most important source increased from 70,28 in the preceding year to 70,85. The increase was shared by the district boards of Patna, Shahabad, Champaran and the five boards of the Chota Nagpur Division. The increase in Patna (+49,5) was due to improved collection of arrear cess demand. The increase in the districts of Shahabad (+5·1), Champaran (+5·1), Hazaribagh (+1,72), Ranchi (+22), Palamau (+8), Manbhum (+2,36) and Singhbhum (+13) is ascribed to better collection of cess. There was on the other hand a decrease in the income from this source in the districts of Gaya (—3), Saran (—24), Muzaffarpur (—17), Darbhanga (—44), Monghyr (—49), Bhagalpur (—52), and Purnea (—2,64). The decrease in the districts of the Tirhut Division is ascribed partly to bad collection of cess and partly to the rent reduction operations, and that in the districts of the Bhagalpur Division was due mainly to the latter factor. No special reason has been given for the heavy decrease of 2,64 in the case of Purnea district board.

7. *Government grants.*—The total amount of contributions made to district boards from the provincial revenues for various purposes amounted to 45,20 against 66,20 in the preceding year. The grants for "Education" fell from 26,28 to 25,67 and for "Civil Works" from 35,66, to 16,00. The large decrease under the latter head was due to the fact that compared with the preceding year, smaller grants were required for completion of the earthquake restoration works. On the other hand, Government's contributions for 'Medical' and 'Public Health' purposes increased from 3,06 to 3,42 due to the fact that certain boards were paid special grants for their anti-malaria and anti-mosquito schemes.

8. *Distribution of expenditure under main heads.*—The total expenditure of the boards during the year under review decreased from 1,49,13 in the preceding year to 1,45,34 i.e. by 3,79. The principal heads on which the major portion of the boards' money is spent are "Education", "Public Health", "Medical Relief" and "Civil Works". The expenditure increased, under the head "Education" from 41,35 to 42,58, under "Public Health" from 6,25 to 6,33 and under "Medical Relief" from 14,55 to 14,73. The expenditure on "Civil Works" on the other hand fell from 64,61 to 56,15. The explanation for material fluctuations in the expenditure under these major heads as compared with that of the previous year and a brief account of the principal activities of the boards during the year under review in respect of the administration of their important departments are given in the following paragraphs.

9. *Education.*—As compared with the preceding year's figures the expenditure under this head during the year under review showed an increase of 1,23 which was shared by all the district boards except Champaran, Muzaffarpur and Bhagalpur. The increase was noticeable in Patna (39), Shahabad (11), Saran (24), Darbhanga (16), Monghyr (13) and Purnea (12). Conversion of stipendiary, aided and unaided schools into board-managed ones, raising of the status of certain schools payment of grants-in-aid and stipends to new schools; appointment of additional teachers; replacement of untrained teachers by trained ones, payment to the *gurus* of primary schools at the prescribed minimum rates and periodical increments in the salaries of teachers were among the factors leading to the increased expenditure. In Patna, the increase is also partly attributed to the payment of arrear provident fund contributions and in Manbhum it was due to the payment during the year of a liability of the previous year on account of furniture, etc., and of the cost of adult education. The decrease in expenditure under this head in Champaran is more apparent than real. The restoration of the cut in the pay of teachers and the payment of their arrear pay had swelled the previous year's figures. In Muzaffarpur the decrease is reported to be due to non-payment of certain bills for grants-in-aid. The fall in expenditure in Bhagalpur is ascribed chiefly to the adjustment of the pay of the staff on the basis of revised scales of pay recommended by the Retrenchment Committee appointed by the board. Almost all district boards are reported to have incurred expenditure under this head in excess of the minima prescribed by Government.

In the sphere of education, the progress can on the whole be said to be satisfactory, the number of all classes of schools, except middle vernacular schools (both maintained and aided) and upper primary schools aided by the district boards and the number of pupils have appreciably increased. The number of middle English schools maintained and aided by the boards rose from 299 and 177 to 333 and 239 respectively, and that of middle vernacular schools dwindled from 77 and 15 to 55 and 12 respectively. The decrease in the number of the middle vernacular schools is due to the conversion of such schools, particularly in the districts of Patna and Darbhanga into middle English Schools, the demand for which is reported to be increasing. In the former district all middle vernacular schools were converted into middle English schools during the year. The proposal of the Darbhanga district board to convert all middle vernacular schools under its management into middle English schools is under the consideration of Government. In Purnea the middle English school at Dhamdaha was raised to the status of a high English school. In Shahabad two middle English schools were taken under the direct management of the board. Two new middle English schools in Saran, one in Champaran and eight in Darbhanga were created by the respective district boards. It is satisfactory that the Saran district board renewed its grants-in-aid to 27 out of 29 middle English schools which had been discontinued in the previous year. The number of upper and lower primary schools managed by the boards increased by 96 and 55 respectively. The number of lower primary schools aided by the boards rose by 88. The number of stipendiary schools both of the upper and lower primary standard increased by 8 and 225 respectively. The scheme of free and compulsory education under the Primary Education Act introduced within the Jamhore union board in the district of Gaya continued during the year. The programme for the extension and improvement of primary education in the district of Gaya as approved by Government continued with the modification that stipends were granted in accordance with local demands. It is reported that all-round improvements have been made by the Purnea district board towards the expansion of education in the district.

Although the demand for female education is increasing, its progress is still greatly handicapped by the dearth of trained female teachers. The number of girls receiving education in boys' schools is increasing. Female education received a great impetus in the districts of Patna and Gaya and facilities for the same were improved in both the districts. In Gaya, unqualified mistresses were replaced by qualified ones as vacancies arose. It is reported that the Bhagalpur district board formulated a detailed

programme for expansion of female education in the district on the lines suggested by the Director of Public Instruction. The scheme aims at the establishment of one upper primary school with an Urdu section for Muhammadan girls at every thana headquarters and a middle school on a mixed Hindi-Urdu basis at every subdivisional headquarters. As in the previous year, the Purnea district board awarded lower primary scholarships to ten girls of whom four were Muhammadans, and the number of girls in all classes of upper and lower primary schools increased.

Certain district boards notably Purnea, extended aid to schools for boys and girls belonging to the aboriginal and depressed classes. The district board of Bhagalpur spent during the year Rs. 1,202 on the education of Santals in the Banka subdivision and the Singhbhum district board paid stipends to the teachers of newly opened schools for aboriginals. The Patna district board continued to take interest in the education of the depressed and intellectually backward classes by providing for the free supply of books, slates, pencils, etc., to students belonging to such classes. Special prizes were also offered to such students and every privilege and concession was allowed to them. In Gaya books and writing materials are supplied to students belonging to backward communities when funds permit. The mass literacy campaign was taken up by most of the district boards as a new item of work. The Patna, Gaya and Purnea district boards took keen interest in the movement. The Patna district board continued to give financial aid to village libraries.

Apart from the activities mentioned above, the Patna district board continued to display commendable zeal for the advancement of vocational and technical training in middle schools. Teachers were trained at the Government Institute at Gulzarbagh to enable them to acquire expert knowledge. A tailoring class was opened by the Gaya district board at the Hasua M. E. school under a qualified teacher. In Monghyr the building for the carpentry shed at Balia for which a Government grant was made was completed, and classes were expected to open shortly. The Shahabad district board maintained one industrial school and the Darbhanga and Manbhum boards aided one and five such schools respectively during the year under report. Some of the district boards continued to award scholarships for technical, medical and other types of specialised education. The Monghyr district board awarded three scholarships tenable at the Mahila Vidyapath, Darbhanga.

The medical examination of school children by public health officers or dispensary doctors was continued in most of the districts. The defects noticed were brought to the knowledge of the parents and guardians of the boys.

10. *Medical.*—The expenditure incurred by boards during the year under this head excluding expenditure on buildings was approximately 18 more than in the previous year. The increase was shared by all the boards except Saran, Darbhanga and Monghyr. The total number of dispensaries maintained by district boards increased during the year by 20 and the number of aided dispensaries also increased by 23. The increase in the former class of dispensaries was due to the opening of new dispensaries by the district boards of Champaran, Bhagalpur Purnea, Hazaribagh and Manbhum. The number of aided dispensaries rose in Champaran by 8, in Muzaffarpur by 5, in Purnea by 1, in Hazaribagh by 3, and in Manbhum by 6. A number of subsidised dispensaries (3 Allopathic, 4 Ayurvedic and one Tibbi) were opened in the district of Muzaffarpur during the year. The Purnea district board has under consideration a proposal to establish a dispensary at Dilli-Diwanganj and it is reported that the Maldah district board in Bengal would pay a contribution of Rs. 200 a year and a local zamindar has promised a substantial donation towards the cost of construction of the dispensary building. If a dispensary is established at this place it will be a boon to the inhabitants of the locality who suffer very badly from malaria and kala-azar. In Manbhum 11 Homeopathic dispensaries received aid from the district board. The Patna district board continued to subsidise the municipal dispensaries at Barh, Bihar and Dinapore, the Irrigation Department's dispensary at Bikram, the Gaya Leper Asylum and the Leper Institute at Gulzarbagh. The Gaya district board continued to pay the usual subsidies to the local Pilgrim Hospital, Leper

Asylum and the Lady Elgin Zenana Hospital and to the Daudnagar dispensary. The Bhagalpur district board contributed Rs. 8,000 to the Sadr Hospital, Rs. 1,000 to the Lady Dufferin Female Hospital, Rs. 1,200 to the Anti-Tuberculosis clinic attached to the Sadr Hospital, and Rs. 1,000 for the maintenance of an Ayurvedic dispensary at Nirmali in the Supaul subdivision. At the Sadr Hospital at Monghyr maintained by the Monghyr district board a tuberculosis clinic was opened during the year and the board agreed to contribute to it an annual recurring grant of Rs. 450. During the year the Hazaribagh district board increased its contribution towards the maintenance of the hospitals at Hazaribagh Sadr, Giridih, Chatra and Kodarma and restored its contribution to the Hazaribagh Zenana Hospital. It also made grants towards the maintenance of two Homeopathic dispensaries at Hazaribagh. In Manbhum a subsidised dispensary at Nawagarh was converted into a full fledged charitable dispensary. The Manbhum district board also opened during the year a new Ayurvedic dispensary at Bermo, two more Allopathic dispensaries in the Sadr subdivision and two Homeopathic dispensaries in Dhanbad.

Certain special measures for maternity work were taken by some of the boards. The district board of Patna continued to maintain five midwives while the Gaya district board entertained one midwife at each of the dispensaries at Sherghati, Fatehpur, Rajauli, Warsaliganj, Arwal, Ghosi, Nabinagar and Imamganj. The Shahabad district board appointed 3 midwives and 12 trained *dais* who were attached to different dispensaries for attending on labour cases and for training the local *chamains*. The Champaran district board engaged two trained midwives who toured throughout the district and trained the local *chamains* and attended several labour cases. 287 *chamains* were successfully trained by them during the year. The Muzaffarpur board appointed a trained midwife in addition to the two appointed last year, and made a contribution of Rs. 600 to the local Maternity and Child Welfare Society for the training of *dais*. The Bhagalpur district board maintained a Maternity and Child Welfare clinic at Banka. The Lady Health Visitor of the board toured in rural areas throughout the district and trained 295 *dais* and *chamains* during the year.

Provision for the treatment of leprosy cases continued to be made by some of the district boards. As already mentioned, the Patna district board continued its contributious to the Gaya Leper Asylum and the Gulzarbagh Leper Institute. The Gaya board could do nothing beyond paying the usual contribution to the local leper asylum. The Shahabad district board entertained two doctors specially trained to treat leprosy cases. The incidence of leprosy in Champaran is considerable but no action is reported to have been taken by the district board for the treatment of lepers. In Muzaffarpur seven leprosy clinics continued to function during the year and treated 651 patients. The board sanctioned Rs. 1,818 from its own funds and Rs. 750 was received from the Bihar and Orissa Leprosy Relief Committee during the year to carry on leprosy relief work at the clinics. A leper clinic at Darbhanga was maintained by the district board at a cost of Rs. 1,246. During the year 7,944 patients were treated at the clinic against 8,313 in the previous year. The district board dispensaries treated 192 cases. The leper clinics at Jamui and Begusarai in the district of Monghyr which are being financed by the Bihar and Orissa Relief Committee are reported to have worked satisfactorily during the year. In Bhagalpur the leper clinic attached to the Supaul hospital continued to function and two more clinics were started during the year at Banka and Madhipura. The Manbhum district board opened a new leper clinic at Ichagarh.

The Darbhanga district board paid a fixed monthly allowance to the staff of the Darbhanga Medical School Hospital for anti-rabic treatment. The Monghyr district board made a lump sum contribution of Rs. 665 to the local anti-rabic centre for its maintenance. In Shahabad an anti-rabic treatment centre has been opened.

Most of the boards awarded scholarships for medical education both in allopathic and indigenous systems.

11. *Public Health.*—The total expenditure of the boards under this head increased by 8 as compared with the previous year. The increase was shared by a number of district boards but was most marked in Gaya, Champaran and Purnea where it amounted to 8, 11 and 10 respectively. The activities of the district boards in this sphere consisted, as usual, of provision of preventive and curative measures to combat outbreaks of epidemics and of measures to improve the sources of drinking water-supply in rural areas. The education of public opinion in villages in general principles of sanitation and hygiene by lantern lectures and demonstrations formed another important activity of the health staff of the boards.

In some of the district boards extra staff was appointed to look after the sanitation of fairs and *melas* and to take precautions with a view to guard against the outbreak of epidemics. The Patna district board continued to maintain an elaborate organisation for rural sanitation in the district on the lines of the Gurgaon Scheme. The district board also maintained an officer who toured throughout the district and delivered lectures with the aid of magic lanterns on various diseases and also on subjects pertaining to maternity and child welfare work. A few other district boards also maintained similar officers for delivering lectures at fairs and *melas*. Action under the Bihar and Orissa Prevention of Adulteration Act was taken by some of the boards to prevent sale of adulterated foods.

In the year under review the general health of the rural population was fairly satisfactory in the majority of the districts of the province. Such measures as were taken against the spread of diseases in an epidemic form are reported to have been adequate. There was no epidemic either of cholera or small-pox in the district of Patna during the year under review. The districts of the Tirhut Division were the worst sufferers from epidemic diseases, viz., plague, cholera, small-pox and malaria. Cholera broke out on a fairly serious scale in only four districts, viz., Shahabad, Saran, Champaran and Muzaffarpur. Cholera Bacteriophage was used in some of the districts with good results. Small-pox assumed epidemic proportions in Muzaffarpur. There were stray cases throughout the year in Saran and Champaran as well as in Darbhanga. Vaccination and re-vaccination work was carried out extensively to keep down the incidence of the disease. In Muzaffarpur free vaccination depots were kept open from January to March and again from October to December in 1938 to enable the poorer section of the public to get the benefit of free vaccination. In Saran the incidence of deaths due to small-pox was comparatively high. Compulsory vaccination continued to be in force in the districts of the Patna Division. Plague, in epidemic form is reported to have been confined to the districts of the Tirhut Division. In Saran it was less severe than in the previous year. In Champaran it was confined to two thanas only, Bettiah and Majhawalia. In Muzaffarpur the epidemic was confined to seven thanas (five in the Hajipur subdivison and two in the Sadr) but it was rather virulent and over 300 deaths occurred in the district from this disease. In Darbhanga, only seven attacks and five deaths were reported during the year. Malaria raged in an epidemic form in the districts of the Bhagalpur and Tirhut Divisions. The districts affected most were Muzaffarpur and Darbhanga due to the occurrence of floods during the year. The usual preventive and curative measures were taken and quinine and other medicines were freely distributed at dispensaries and other centres specially opened for the purpose. In the Supaul and Madhipura subdivisions in North Bhagalpur also malaria broke out in an epidemic form. In addition to permanent dispensaries, seven epidemic centres and sub-centres were opened in the affected areas to combat the disease and there was free distribution of quinine, sago and sugar to the needy. A scheme for anti-malarial work was formulated by the board during the year and it received a special grant of Rs. 11,500 from Government towards the cost of the scheme. The district board of Purnea received a grant of Rs. 2,000 from Government for its anti-malarial scheme. In Muzaffarpur Government sanctioned an intensive anti-malarial scheme to be carried on in 6 units where malarial conditions were known to be worst Curative measures and anti-mosquito work were carried out in all these units, and all water-logged areas in and round the

villages in these units were cleared of weeds and sprayed with pyrocide mixture. The Government Waterways Division excavated two channels during the year in Majorganj to drain off the spill area of the Manusmara river and a third one is under excavation. Special treatment centres in charge of Government epidemic doctors were opened at Sandho and Bhagwanpur. In Darbhanga, 70 temporary malaria centres were opened in affected localities for distribution of medicines to the sufferers and Government supplied 794 lbs. of quinine for free distribution. The anti-mosquito campaign which was introduced in the Pandaul area in the previous year was extended to five other sections in the district where the incidence of malaria was high. The results of the campaign have been encouraging and there has been a reduction in the incidence of malaria in the areas where it was introduced. In Champaran malaria broke out in an epidemic form in the Tharuhat Elaka of the Bettiah subdivision. Government sanctioned a grant of Rs. 2,000 to the Board for free supply of quinine. In other districts the outbreak of the disease was less intensive.

As compared with the preceding years, larger grants were given by Government to district boards for improvement of drinking water-supply in rural areas and a fair portion of these grants was earmarked for the provision of wells for Harijans and aboriginals. The boards' expenditure under this head during the year, however, declined by 76 and the decrease was most marked in Muzaffarpur and Darbhanga where it amounted to 48 and 27 respectively. During the year under review the district board of Darbhanga sunk four masonry wells and 32 deep tube wells with the help of a generous grant by the Maharajadhiraja of Darbhanga and five more tube wells with the help of a grant from Government. The construction of 17 new wells was completed and the sinking of 16 more wells was taken up in Monghyr. In Bhagalpur 27 tube wells were sunk during the year in the flood affected areas of Supaul and Madhipura sub-divisions. The expenditure under this head was particularly heavy in the district of Purnea where a sum of Rs. 40,000 was spent during the year. Provision of good drinking water is an acute problem in the district and to remove the water scarcity, 155 ring wells were sunk during the year in addition to 480 tube wells.

12. *Veterinary.*—The total expenditure under this head increased by 12 as compared with the previous year. The increase was shared by all the boards except Patna, Champaran, Darbhanga and Monghyr but was most noticeable in Gaya and Purnea. In Gaya it was attributed to actual requirements of the year and the increase in the number of bulls, while in Purnea it was due to the maintenance of two additional touring Veterinary Assistant Surgeons, one at Katihar and the other at Dhamdaha. In other districts where there was some increase in expenditure under this head, it was due chiefly to increased expenditure on medicines, sera and vaccine. The comparatively less expenditure during the year under review in Patna, Champaran, Darbhanga and Monghyr has been satisfactorily accounted for and does not call for any remarks.

There was no change in the number of Veterinary hospitals in the Tirhut Division. There were six touring veterinary assistants in each of the districts of Muzaffarpur and Darbhanga, four in Saran, five in Champaran and six in Bhagalpur. In Ranchi a second Veterinary dispensary was opened at Basia in the Gumla subdivision. From the figures furnished by the Commissioners it appears that there was, on the whole, an increase in the number of cases treated at Veterinary hospitals and by the Veterinary Assistants. The activities of the Veterinary staff were, as usual, confined to treatment of cattle diseases, castration, inoculation and propaganda work. Inoculation does not seem to have been in much demand as there was no serious outbreak of any cattle disease except in Bhagalpur and Singhbhum. Goat virus inoculation was carried out in Bhagalpur and Monghyr and in the former district as many as 21,887 heads of cattle were vaccinated during the year against 9,766 in the previous year. A number of district boards continued to maintain stud bulls for improvement of the breed of cows and

buffaloes. In Darbhanga the 18 Hisar breed bulls purchased in the preceding year were distributed in the district for breeding purposes. A bull calf was supplied to the Sadr Hospital at Muzaffarpur by Mrs. Swanzy. The district board of Patna contributed Rs. 500 to the Bihta Cattle Show and the Muzaffarpur district board contributed Rs. 250 towards the Sitamarhi Cattle Fair. The Purnea district board continued to award prizes at the cattle shows at Khagra, Gulabbagh and Dharmganj *mela.* A temporary Veterinary hospital was opened by the Saran district board at the Sonepur fair as usual and Veterinary Assistant Surgeons were deputed by the Darbhanga district board to look after the cattle brought to fairs held in the district during the year. A shoeing forge was started at the Sadr Hospital at Bhagalpur with a duly qualified farrier. In Monghyr the shoeing forge attached to the Sadr Hospital continued to work during the year though at a loss. Two scholarships of Rs. 20 each tenable at the Patna Veterinary College awarded by the district boards of Darbhanga and Champaran were continued during the year. These two boards also paid contributions to the Tirhut Agricultural Museum and the Purnea district board paid a contribution of Rs. 200 for Agricultural Exhibitions. Seventy-four cases under the Cruelty to Animals Act were instituted in Gaya and all of them ended in conviction.

13. *Civil Works.*—The expenditure under this head fell from 64,61 in the preceding year to 56,14 during the year under review. The decrease was shared by the district boards of the Tirhut Division and also by the district boards of Gaya, Purnea and Palamau. It was considerable in Saran (—1,55), Champaran (—2,43), Muzaffarpur (—2,69), Darbhanga (—4,21) and Purnea (—85) and less marked in Gaya and Palamau. On the other hand, the expenditure increased substantially in the districts of Patna (+26), Shahabad (+30), Monghyr (+57), Hazaribagh (+18), Ranchi (+70), Manbhum (+90) and Singhbhum (+40). The net result was a drop of 8,47 for the province as a whole. The fall in Champaran, Muzaffarpur and Darbhanga was due to less expenditure on earthquake reconstruction works and in Saran to non-receipt of certain Government grants, reduced income from other sources and consequent non-payment of bills during the year for want of funds. In Purnea it was due to less expenditure on repair works and to short collection of cess owing to which payment of a number of bills had to be held up during the year. The decrease in Gaya and Palamau was due to the reduced income of the Boards and consequent paucity of funds. The increased expenditure in Patna was mainly due to large expenditure out of a Government loan for repairs to roads damaged by floods, while in Shahabad it was due to heavy expenditure on improvement of communications from Government grants. The rise in Monghyr is reported to have been due to the repairs of the Kiul bridge on the 2nd mile of Jamui-Mallepur road and construction of a bridge on the Soney Nallah on the Billow-Chewara road. The increase in Hazaribagh is attributed to special repairs to some of the buildings and the steam roller of the district board. In Ranchi, the availability of more funds for expenditure from Government grants was the main reason for increased expenditure. The rise in Manbhum and Singhbhum is reported to have been due to larger expenditure on improvement of communications. Out of the total outlay of 56,14 under this head the boards spent 4,72 on building works and 41,12 on communications. On original works of communications the expenditure during the year was 10,93 against 9,80 in the preceding year. The bulk of the expenditure on communications was incurred on repairs and maintenance of roads. In the matter of communications noteworthy progress has been made in the Patna and Gaya districts. In particular mention may be made of the metalling of the Bihar-Rajgir road which was taken up during the year under report and pushed through with vigour. Some of the more important works of road repairs and bridges executed during the year are mentioned below :—

(1) Repair of Gaya-Nawadah Road	41
(2) Construction of Pakri Ghat bridge on Lauria-Ramnagar road	34
(3) Stone-metalling of Sitamarhi road no. 1 from miles 1 to 6 and 34 to 37.	132

(4) Replacing of the washed away spans of Kiul bridge on the 2nd mile of Mallepur-Jamui road. 70

(5) Construction of a road from Bijupara to Khelari and Lapra 50

(6) Maintenance of the Ranchi-Gumla road 21

The total mileage of metalled, unmetalled and village roads maintained by district boards during the year was 2,396; 15,125 and 10,046 respectively as against 2,403; 14,993 and 9,993 maintained in the preceding year. The reduction in the mileage of metalled roads is due to the transfer of certain roads to the Hazaribagh Mines Board. No village roads were maintained by the Singhbhum district board.

The cost of maintenance per mile of metalled roads was the highest in the district of Patna where it amounted to Rs. 866 and the lowest in Palamau where it was only Rs. 43. The average cost of maintenance of unmetalled roads was, however, the highest in Palamau where it worked out to Rs. 238 per mile and the lowest in Purnea being Rs. 37 only. A fair amount was spent by a number of district boards on the improvement and maintenance of inter-district communications. The amount spent on this account was substantial in Bhagalpur (1,14), Monghyr (99), Purnea (78), Champaran (41) and Palamau (64).

Arboriculture.—All the district boards continued to incur expenditure on "Arboriculture" except those of Hazaribagh and Ranchi which have been exempted from incurring any expenditure under this head on account of their limited resources. The minimum prescribed for expenditure under this head was attained by the district boards of Patna, Monghyr, Manbhum and Singhbhum only.

14. *Water hyacinth.*—Water hyacinth is not a serious menace in the district of Patna. The Patna district board spent Rs. 480 during the year under report against Rs. 637 in the previous year for the eradication of this pest. It is spreading in the rural areas of the district of Shahabad and its eradication demands greater attention on the part of the district board than what it has received so far. No exepnditure was incurred by any of the district boards in the Tirhut Division on this account. In Champaran, water hyacinth was found in two villages in the Bagaha thana, but in summer the temporary accumulation of water dried up and the weeds also disappeared. In Muzaffarpur a bye-law for the eradication of water hyacinth is in force and this is reported to have gone a great way in checking the growth of the weed. In Monghyr also similar bye-laws have been approved and it is hoped that their proper enforcement will remove the pest from the district. In Bhagalpur the district board arranged to remove the pest at its own cost but any large scale operation was found to be impossible without the co-operation of the villagers. The Purnea district board spent only Rs. 9 for the eradication of water hyacinth: it is reported however that the ditches on both sides of the Kissenganj branch of the E. B. Railway track are full of this weed; and Government trust that both the railway authorities and the district board of Purnea will take concerted action to put an end to this rapidly growing menace.

15. *Closing balance.*—The 'actual' balance in the hands of district boards at the close of the year amounted to 22,61 against 29,09 of the preceding year. Of this, 6,46 represents unspent balances of Government grants for specific purposes. The free balance of the boards thus amounted to 16,15 as against 21,90 in the preceding year. The closing balances of all the boards except Saran, Champaran and Monghyr exceeded the prescribed minimum in each case. Comments on the low balances of these three boards have already been made in paragraph 5 of this resolution. Closing balances were particularly high in the districts of the Patna and Chota Nagpur Divisions and also in the districts of Muzaffarpur and Darbhanga, due in most cases chiefly to unspent balances of grants and loans made by Government.

16. *General remarks.*—The limited resources of the boards did not permit of any appreciable advance in their activities, but the funds available were

profitably utilised by most of them, and the administration of the boards was fairly satisfactory except in Saran. The administration of the Saran Board continued to be lamentably inefficient on account of party faction and personal quarrel between the Chairman and the Vice-Chairman.

The rent reduction operations have, in general, reduced the resources of the boards. This has already engaged the attention of all concerned and it is hoped that before long ways and means will be found for augumenting the resources of district boards to enable them to carry out satisfactorily their legitimate functions. The district boards should meanwhile make an earnest endeavour to cut down their expenditure as far as practicable.

The administration of the district boards of Patna, Gaya, Monghyr and Purnea has been particularly commended and the good work done by the executives of these boards has been praised by the local officers. With the close of the year 1938-39 the life of the old board of Ranchi came to an end. The new board has been elected on a largely extended franchise and for the first time in its history it has now an elected chairman. It is unfortunate that these important constitutional changes should synchronize with something in the nature of a financial crisis in the board's career. The district boards of Hazaribagh, Palamau and Singhbhum have also now non-official chairmen after the general elections which have since been held. A noteworthy change in the constitution of the boards which has been made since the close of the year under review is the increase in the number of their members and the conversion of plural-seated constituencies into single-seated ones. An event of importance during the year was the declaration of certain areas in the district of Hazaribagh as a mining area under the Hazaribagh Mines Board Act, 1936.

The relations between the members and the executives of boards and Government officials were generally cordial except in Saran. The Saran district board adopted an attitude of ignoring help and advice from Government and even declined to accept the services of a Government officer which were offered to the board. The co-operation and advice of local officers was always available to the board but was never sought and was generally ignored, if given. This state of affairs has fortunately since come to an end with the reconstitution of the board and it is perhaps a significant fact that out of the 30 out-going elected members, only 4 could succeed in securing re-election.

Comments on the general condition of accounts of district boards are made in the Annual Report on the working of the Local Audit Department in Bihar published under the authority of the Examiner of Local Accounts, Bihar.

In conclusion, Government have pleasure in recording their appreciation of the good work done by the executives of the majority of district boards particularly those of Patna, Gaya, Monghyr and Purnea. They take the opportunity to thank the District Officers and the Commissioners of Divisions for the help and advice given by them to the non-official executives of the boards in the discharge of their onerous duties.

By order of the Government of Bihar,

V. K. R. MENON,

Secretary to Government.

(a) The decrease is due to transfer of roads to the Hazaribagh Mines Board.
(b) Difference in columns 7 and 11 is due to the fact that 8 miles of village road was improved and promoted to District Road during the year 1938-39.
(c) 04·2 miles of unmetalled road were metalled during the year 1938-39.
(d) Excludes Rs. 35,862 surrendered by the board.

APPENDIX E.

Statement showing the working of the Union Committees in Bihar during the year 1938-39.

District board.	Name of union.	Date of establishment.	Area.	Population.	Number of members.	Number of meetings held.	Opening balance.	Income. Receipts under the Cattle Trespass Act.	Income. Contribution by the district board.	Income. Receipts under section 118 of the Act.	Income. All other receipts.	Income. Total.	Total income, including opening balance.	Expenditure. On establishment.	Expenditure. On village roads.	Expenditure. On drinking water-supply.	Expenditure. On conservancy and drainage.	Expenditure. On dispensaries.	Expenditure. On education.	Expenditure. On other objects.	Expenditure. Total.	Closing balance.
